Laser - The world's most popular adult racing class.

Every Laser in the world is identical. The strict one-design class rules ensure this remains true, making it the sailor that wins the race, not the boat. The Laser is a challenging boat that rewards athleticism, subtle steering and trimming techniques, as well as tactical excellence. It is a singlehanded Olympic class boat, also sailed at club, national and international levels.

Radial - Popular racing class for adults, women & youths.

The Laser Radial is a new Olympic class for 2008, based upon the same hull and equipment as the regular Laser. The combination of a 19% smaller sail and a shorter, more flexible mast create an excellent medium sized rig. Everything else is unchanged. The Laser Radial is raced at club, national and international levels.

4.7 - The next step after Bug, Optimist or Pico.

The 4.7 Laser features the same hull as the Laser and Laser Radial, but with a smaller sail plan that is more manageable for lighter sailors. The Laser 4.7 is the next step into competitive sailing after the Bug, Optimist or Pico.
